University Enters Upon Eighty-Third Year With All Departments Well Filled.

DR. KINSOLVING'S ADDRESS

[Special to The Times-Dispatch,] CHARLOTTESVILLE, VA., September -The convocation for the eighty third academic year of the University in Cabell Hall, at that institution are ceded by a procession from the rotund of the students and faculty. The in

vocation was by the Rev, H. M. McIl-hany, Jr., and the convocation address by the Rev. Dr. Atthur Barksdaie Kinsolving, rector of St. Paul's Church, Baltimore, his theme being "Some Convictions and Ideals."

President Alderman made an exceedingly interesting statement in regard to the activities and growth of the university. The total enrolment of students thus far. is 741, which means that the students yet to enter will increase the matriculation to \$30, a normal gain of about fifty over last year, when there was a similar gain over the preceding session. Thirty-nine States are represented, as against thirty-four last session, and there are students from five foreign countries—Mexico, Brazil, China, South America and Turkey. The greatest gains are in the college and the law department. The total number of new students who have not been here before is 294, a gain of 23.

The total registration in the college alone in the undergraduate or academic department is 301. For the first time since the Civil War the number of students in the academic department has reached and passed the highwater mark of 390. The total registration in the college this year will be 335, which is considerably in excess of any period in the history of the university before or since the war.

One of the most engouraging features is the increase in the total number of Virginia students in the college or academic department. The figures indicate an increase of over 40 per cent, in the number of new students coming to the college from the

Reliability is the Mother of Confidence

And confidence and reputation go hand in hand. Some people seem to think that success is a mere haphazard achievement—a sort of hit or miss affair, but we know better.

We know that success comes through fair treatment, honest merchandise and the best values that can can be given-not some of the time, but all the time. We know because that's the way we've achieved it, and we shall fortify the position we hold through more of the same treatment-through striving for more of your confidence, for the people's confidence (in us), is just another word for success.
